

# PRODUCT CATALOG 2025

PUSUN  
**PP-Smart Pro**

## THE MOST ADVANCED PICKLEBALL MACHINE IN OUR LINEUP.

# RM 5,288

### Purchase with-Purchase (PWP)

**Ball Picker**  
PWP Price = **RM 70**  
(Normal Price = RM 89)

**80 pcs of premium Pickleballs**  
PWP Price = **RM 320**  
(Normal Price = RM 480)

## PP-Smart Pro

Our flagship model, the PP-Smart Pro offers the most advanced training experience with additional shot modes, precise app control, and an industrial-grade motor for enhanced performance and longer lifespan. It's also lighter than the PP-Smart, making it easier to transport without compromising power or build quality.

# 15 KG

### Optimized Lightweight Build

At just 15kg, the Pro is lighter than the PP-Smart – a deliberate design upgrade for easier transport, while maintaining industrial-grade performance – ideal for clubs and consistent court use.

# 26 m

### Maximum Serving Distance

Launches shots up to 26 meters, giving you full-court coverage and high-intensity drill capability.

### Extended Battery Life

Enjoy 5-6 hours of continuous use on a single charge – ideal for long sessions or back-to-back usage.

Precision-Optimized Standard TRAINING MODES

### Precision-Optimized Training Modes

Delivers the same full range of training modes, now enhanced by an industrial-grade motor for smoother, more consistent shot execution and better overall control.

### Product Dimensions

### Upgraded Motor & Hidden Serve Direction

Equipped with an industrial-grade motor for longer lifespan and enhanced shot precision. A larger feeding window allows balls to serve straight without rotating the machine, making it harder for opponents to predict the shot direction.

### Trusted Warranty Coverage & WhatsApp Support

As the sole official distributor certified by PUSUN, Rallybot offers a **1-year** warranty on the battery and **1.5 years** on body parts (excluding normal wear and tear). Our dedicated WhatsApp support team is always ready to assist you with troubleshooting, product guidance, and after-sales service.

## PUSUN PP-Smart

**BALANCED FEATURES.  
CONSISTENT TRAINING.**

**RM 4,588**

### Purchase with-Purchase(PWP)

**Ball Picker**  
PWP Price = **RM 70**  
(Normal Price = RM 89)

**80 pcs of premium Pickleballs**  
PWP Price = **RM 320**  
(Normal Price = RM 480)

## PP-Smart

A reliable mid-tier option, the PP-Smart delivers all the essential features like speed, angle, and frequency control. While it lacks the advanced programmability and upgraded motor of the Pro, it's a sturdy, consistent performer – ideal for players and coaches who train regularly and want dependable results.

**18 KG**

### Sturdy, Durable Frame

Weighing 18kg, PP-smart is built tough for everyday training just like the PP-Smart Pro.

**20m**

### 20m Serving Range

Covers up to 20 meters, perfect for regular practice distances and player development.

**4-5 Hours**

### Dependable Battery Life

Provides 4-5 hours of training time, keeping sessions productive without constant recharging.

**Standard TRAINING MODES**

### Standard Training Modes

Comes equipped with all core shot types needed for routine training and skill-building.

### Product Dimensions

### Standard Motor & Predictable Feed Pattern

Uses a standard motor with lower precision and shorter lifespan. Requires the machine to rotate diagonally before serving, making ball direction easier to read for experienced players.

### Trusted Warranty Coverage & WhatsApp Support

As the sole official distributor certified by PUSUN, Rallybot offers a **1-year** warranty on the battery and **1.5 years** on body parts (excluding normal wear and tear). Our dedicated WhatsApp support team is always ready to assist you with troubleshooting, product guidance, and after-sales service.

PUSUN  
**PP-Mini Pro**

**COMPACT SIZE.  
ESSENTIAL FUNCTIONALITY.**

**RM 2,488**

**Purchase with-Purchase(PWP)**

**Ball Picker**  
PWP Price = **RM 70**  
(Normal Price = RM 89)

**80 pcs of premium Pickleballs**  
PWP Price = **RM 320**  
(Normal Price = RM 480)

## PP-Mini Pro

Compact yet capable, the PP-Mini Pro offers core training features with app control in a highly portable design. While it doesn't include advanced programmability or the higher shot output of the Pro models, it's ideal for casual players, smaller courts, and those who value lightweight convenience with smart functionality.

**8 KG**

### Ultra-Portable Design

At only 8kg, the Mini Pro is easy to carry, pack, and store – perfect for players on the move.

**14m**

### Short-Range Feeding

Feeds up to 14 meters, ideal for smaller courts, recreational spaces, or beginner-focused practice.

**3-5 Hours**

### Quick & Efficient Power

Battery lasts 3-5 hours, offering just enough runtime for light drills or short training bursts.

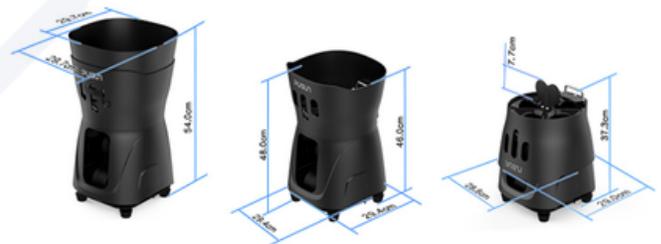

**Limited TRAINING MODES**

### App-Controlled Essentials

Comes with limited training modes via mobile app – keeping things simple, smart, and accessible.

### Product Dimensions

### Compact Hopper Capacity

Holds up to 45 balls, optimized for short sessions and light training. Designed for portability, compared to the 80+ ball capacity of larger models like the PP-Smart and PP-Smart Pro.

### Trusted Warranty Coverage & WhatsApp Support

As the sole official distributor certified by PUSUN, Rallybot offers a **1-year** warranty on the battery and **1.5 years** on body parts (excluding normal wear and tear). Our dedicated WhatsApp support team is always ready to assist you with troubleshooting, product guidance, and after-sales service.

PickleBall Capacity	85 Balls	80 Balls	45 Balls
Pricing	<b>RM 5,288</b>	<b>RM 4,588</b>	<b>RM 2,488</b>

**PP-Smart Pro**

## ✓ Why We Recommend PP-Smart Pro

PP-Smart Pro is powered by an industrial-grade motor that offers a **longer lifespan** and **more precise ball control**, even during high-intensity use. Unlike typical machines, it uses internal motor rotation to change direction without tilting diagonally, making the machine more stable—and the **ball delivery less predictable** for players watching the machine's body. With a 26m serve distance, 85-ball capacity, Precision-Optimized Standard Training Modes, and 5-6 hours of battery life, it's engineered for players and clubs that demand consistency, realism, and reliability.
